

AUTHOR RULES

The main provisions.

Only materials not previously published and not intended for simultaneous publication in other publications are accepted in the Collection "Catalysis and Petrochemicals." The Collection contains materials on the pressing issues of catalysis, the development of new catalysts, catalytic processes, original technological solutions in this field, the analysis of fundamental and applied aspects of modern petrochemistry, the achievements of basic organic synthesis based on oil and the development of new technological processes.

The collection "Catalysis and Petrochemistry" accepts review and original scientific articles summarizing experimental and theoretical research; serial works, which are united by a common name; information about conferences, seminars; short messages relevant to the subject of the collection.

The collection does not require the author (s) to pay for the review of manuscripts and the publication of articles, all published materials can be viewed and copied on-line at the editorial site (free of charge) - www.kataliz.org.ua.

All submissions are subject to peer review by industry experts. The review is confidential. In case of negative review or significant comments, the article may be rejected or returned to the author (s) for revision.

Submission of manuscript for printing

The manuscript of the article is submitted to the editorial office of the Collection in hard copy in two copies and in electronic form by e-mail. The electronic version of the article should fully comply with the paper version. The manuscript must be signed by all co-authors.

The volume of the manuscript (including tables, references, drawings, signatures) should not exceed: for reviews - 60 thousand characters (30 pages), articles - 40 thousand characters (20 pages), messages - 10 - 12,000 characters (5-6 pages). The share of drawings is up to 1/4 of the volume of the article. Tables and figures are added to the text of the article after reference to them. The drawings also represent, electronically, separate files in a graphical editor.

Articles in Ukrainian and English are accepted for publication in the collection.

Description of documents submitted to the editors**In paper form:**

1. *Documents* that are sent by mail or submitted in person to the editorial office of the journal "Catalysis and Petrochemistry" at the address: V.P. Kukhar Institute of Bioorganic Chemistry and Petrochemistry (IBOPC) of the National Academy of Sciences of Ukraine, Kharkiv Highway 50, Kiev-160, 02160 tel / fax + 38 (044) 292-29-80, Ukraine.

2. *A paper version of the manuscript*, signed by all authors (2 copies).

3. *Information* about each of the authors in Ukrainian, English and Russian - surname, name, middle name in full, position, place of work, academic rank, academic degree, contact information (phone, email address), ORCID code. Separately indicate the author with whom the editors will conduct correspondence and negotiations.

4. Copyright transfer agreement.

In electronic form to the email address of catpet20@ukr.net:

1. Article text - 1 file with all figures, tables and references. The file name consists of the name of the first author and the name of the document itself - **Ivanov_manuscript.doc** and **Ivanov_RisN.jpeg (bmp, tiff, etc.)**

2. Abstracts and keywords - 1 file in Ukrainian, English and Russian. The file name consists of the first author's name and the name of the document itself - **Ivanov_abstracts.doc**

3. Information about each of the authors in Ukrainian, English and Russian - surname, full name, position, place of work, academic title, academic degree, contact information (telephone, e-mail address), ORCID code. The file name consists of the name of the first author and the name of the document itself - **Ivanov_authors.doc**

Requirements for the drafting of the manuscript:

Title page of the article in the original language with the following information:

- UDC Index (as of 2013) or PACS (in the latest edition of the 'Physics and Astronomy Classification Scheme 2010' — <http://publishing.aip.org/publishing/pacs/pacs-2010-regular-edition>); title of the article; initials and surname(s) of the author(s); the official name of the institution, the full postal address of the institution, the e-mail address of the author(s); abstract (in the language of the original article), ranging from 1800 to 2000 characters.

- On separate pages, instructions should be presented in English and Russian or Ukrainian and Russian (depending on the language of the original publication)

The abstract should reflect the main purpose of the study and summarize the most significant results.

Abbreviations, conventions, as well as mathematical formulas and complex text formatting are not used. In the annotation it is forbidden to make references to other publications.

- On a separate page - keywords in Ukrainian, English and Russian - no more than 10 words.

Structure of the manuscript:

Introduction, which outlines the problem statement, the relevance of the chosen topic, analysis of recent research and publications, the purpose and objectives of the work; Outline of the main research material and the results obtained; Conclusions, which summarize the work and prospects for further research in this area; Acknowledgments for work assistance and financial support (if needed).

References. The paper is printed on white A4 paper using Times New Roman or Arial font in Microsoft Word in *.doc or *.docx format, size 12, at 1.5 intervals. Page orientation - portrait. Numbering of pages from top to right, starting with the first one.

The title of the article is printed in capital letters in subheadings and in bold. Definitions of abbreviations used for the first time in the text should be provided and then used in the appropriate term. Physical units and designations are issued in accordance with the International System of SI Units. Terminology - according to IUPAC for the names of chemical compounds and methods of study.

Drawings and graphs are done in a Microsoft Excel, Origin or Photoshop graphic editor and are provided in an editable format (electronically in separate files (BMP, JPEG, WMF, TIFF, OPJ)). If the drawing group (a, b, c, ...) is combined with one signature, each drawing is executed in the form of a separate file with the name consisting of the name of the first author and the figure number, for example, Ivanov_fig2a.tiff. The prints are no larger than 160 × 200 mm in size in the text of the article and on individual pages of the paper. The quality of the illustrations should ensure that they are reproduced at 300-600 dpi. The text in the figures should, wherever possible, be replaced by numbers or letters that appear in the captions. Curves are numbered in italic Arabic numerals or letters, which are indicated in the caption to the figure. The graphs of the units indicate the comma. The captions for the drawings are given in a separate file (10 pt).

Formulas must be typed in MatType, ChemDraw, ISIS / Draw or Microsoft Equation formula editors. Handwritten formulas are not accepted for print. Symbols like sin, max, exp, log, lim, 0 (zero), chemical element names are typed directly, not in italics.

The tables should be designed using a MS Word spreadsheet (10 pt) and submitted in the text after the first reference to the table indicating its number and name. Tables should have a name, each column in the table - a subheader that defines the contents of the column. Headings of graphs should be written in bold, without abbreviations, with units of measurement. Only variables are to be placed in the tables, the constant conditions of the experiments are given in text or in the table heading in brackets. Notes to the table are printed immediately after it. If the manuscript contains one table, it is not numbered.

The list of used literature sources should be given at the end of the article, on a separate sheet(s) of paper, numbered consecutively in the order they are cited in the text of the article. The text reference is in square brackets.

The list of used literary sources should consist of two parts (REFERENCES) provided in the language of the original publication and REFERENCES (transliteration language). When publishing the article in English, the sources, the original names of which are given in Cyrillic, must be transliterated. Transliteration of authors' surnames is performed depending on the language of the original source (Decree of the Cabinet of Ministers of Ukraine of January 27, 2010 No. 55 "On arranging the transliteration of the Ukrainian alphabet in Latin" (http://nvngu.in.ua/attachments/005_translit%20ua_eng.doc) (for Ukrainian) or BGN/HCGN (http://nvngu.in.ua/attachments/005_translit%20ru_eng.doc) (for Russian).

EXAMPLE of the list of REFERENCES

Books, monographs:

The name and initials of the author(s), (all authors of the publication). *Title of the book*. Place of publishing, publishing house, year. Number of pages.

Articles in a journal, collection, book:

1. The name and initials of the author(s), (all authors of the publication). Title of the publication. *The name of the journal*. Year. Volume (number). Page spacing. DOI

2. The name and initials of the author(s), (all authors of the publication). Title of the publication. *Collection name*. Year. Number. Page spacing. DOI

3. Name and initials of the author(s), (all authors of the publication). Section name. *Title of the book*. City of publication: publishing house, year. Number of pages. DOI

Thesis abstracts, theses:

Author 's surname and initials. *Title*. Thesis abstract ... index, in which specialty and to seek any scientific rank the thesis/Institution was defended. Place of the edition, year. Number of pages.

Author 's surname and initials. (Year). *Title*. Thesis ... index, in which specialty and to seek any scientific rank the thesis/Institution was defended. Place of the edition

Patents:

Document *type* and number. Index of international classification of inventions. Name and initials of author(s). Name. Country of patenting. Date of publication. Bulletin number.

Electronic publications from Internet:

Name and initials of author(s), *Document name* (date of publication), [WWW document], URL - full e-mail address of the resource (date of document viewing).

Remote Access Electronic Resources:

Name and initials of author (s) (if any). *Document title*. Name of a resource. URL: <http://www> ... (Document display date: HH.MM.YYYY).
